Apple Scribe Printer: Using it with a IIc

==

Scribes are shipped configured to work with the Apple IIc. The switches are as follows:

```
                1-OFF           (OFF = up position)
                2-OFF
                3-OFF
                4-OFF
                5-OFF
                6-OFF
                7-OFF
                8-OFF
```
